

Update: MYP Requirements for the Class of 2023

For Freshmen Hornets and Parents

Remember there are two extracurricular requirements for MYP: 1) are the completion of the personal project and 2) 30 hours total of community service (at least 15 hours during students' freshman year and at least 15 hours during their sophomore year.)

Earlier you received information about due dates for the personal project and community service. Because of our school closure, upcoming deadlines for the personal project assignments and community service have been extended.

Community Service is due July 31st, 2020.

The Research Proposal assignment for the personal project is due April 27th, 2020.

Personal Project

Students recently received information about the Personal Project (a self-directed research project, report, and presentation) that is tentatively due in November of 2020. More specific information about the guidelines, grading criteria, and deadlines can be found online on the MYP-at-BTW website:

<https://sites.google.com/tulaschools.org/myp-at-btw>

Students can also access this link through google classroom BTW Hornets Class of 2023 (join code = odcgn7t)

Students will continue to receive information about the project and assignments via google classroom. Please help students remember to complete each assignment for the project. Failure to complete the project does not impact GPA or class rank; however, it will show a grade of F on students' transcripts. Successful completion means that students ...

1. submitted 6 of the 7 assignments that led up to the final report,
2. submitted the final report and presentation, and
3. scored 12 (out of 32) or higher on the final report.

From now until November of 2020, students should be gradually working on their projects. If students fall behind, they should submit their work late as soon as possible.

Community Service

The deadline to complete community service has been extended to July 31, 2020.

In order for service hours to be counted, 1) students should submit the online reflection for at least 15 hours of community service, and 2) submit a clear picture of their signed log page (or other documentation with the supervising adult signature, location, dates, and hours of service) to google classroom. Students can access both on google classroom (under classwork) or on the MYP-at-BTW website.
